Nowadays people often combine the use of two or more languages in their communication. The phenomenon of code-switching also happens in digital media like Instagram. This study aims 1) To find out the types of code-switching found in *Tasya Kamila Instagram Caption* 2) To identify and analyse the functions of code-switching found in *Tasya Kamila Instagram Caption*. This study used a qualitative method where the data are collected through observation with note-taking technique. The data were analysed by using the theories from Poplack (1980:120-122) and Apple and Muysken (1987). The result of this research shows that all the types of code-switching and five functions of code-switching were found. The types of code-switching consist of three categories, such as; tag-switching with 6 data (7,05%), inter-Sentential switching with 31 data (37,47%), and intra-sentential switching with 48 data (55,48%). Intra-Sentential switching is the most dominant type found in *Tasya Kamila Instagram Caption*. Meanwhile, tag-switching is the least used type on *Tasya Kamila Instagram caption*. The function of code-switching consists of five categories such as expressive function with 33 data (37,93%), referential function with 28 data (32,19%), metalinguistic function with 11 data (12,64%), directive function with 9 data (10,34%), and phatic function with 6 data (6,90%). There was no data of code-switching with poetic function found in the data. The most dominant functions found in *Tasya Kamila Instagram Caption* are expressive function. While, phatic function is the lowest occurrence used in *Tasya Kamila Instagram caption*.

Keywords: *Code-Switching, Tasya Kamila, and Instagram caption*
