Sayin I Ketut WIDNYANA,

707645 - "IDENTIFICATION OF VIRUS CAUSES OF MOSAIC DISEASES IN ZUCCHINI PLANTS IN THE BALI ISLAND OF INDONESIA" başlıklı makale için Nihal KILIÇ tarafından karar işaretlenmiştir.

Sayın I Ketut WIDNYANA,

Karar: Majör Revizyon

Editör Yorumu: Dear Author, here is comments of about your manuscript. Please check the corrections. Sincerely yours Reviewer 1 The manuscript has very poor English, it requires rewritten. Literature is insufficient Reviewer 2 Indirect ELISA and Koch postulate test should explain in section of material and methods. Reviewer 3 The manuscript poorly written. Please check the corrections. It would be important using up to date date of the existance of ZYMV around the world, this Zitter 1989 reference is very old. Reviewer 4 The information given in the introduction about the general characteristics of viruses is very insufficient. In the introduction, more satisfying information about the viruses should be presented. It should be redesigned in the discussion and conclusions section. The discussion should be rewritten, supported by article.

[Hakem-1](#)

Yazar için yorum ve öneriler: Eğer makale küçük harflerle yazılacaksa makalenin başlığındaki "I" harflerinin "i" şeklinde düzeltilmesi gerekmektedir. Diğer yandan Materyal and method kısmında Indirect ELISA detaylı bir şekilde açıklanırsa aha uygun olacaktır. Koch postulatının ne şekilde uygulandığı eksik kalmış. Bununda eklenmesi gerekmektedir

Öneri: Minör Revizyon
