Researchers applied three stages: first watching the talk show, second reading the subtitles available on the video, and third, classifying the data contained in James Corden's utterances in the episode "*Social Media is Tearing Society Apart, but Getting us Free Clothes*" with a note-taking technique. This qualitative study uses the observation method to collect data. In James Corden's utterance found 152 person deixis, 10 words of spatial deixis, and 4 of temporal deixis.
