

ABSTRAK

Gusti Ngurah Deva Wardana 2021. PERAN KELOMPOK WANITA TANI DALAM MENINGKATKAN PENDAPATAN PETANI (Studi Kasus Pada KWT Karang Lestari Desa Sibang Kaja, Kecamatan Abiansemal, Kabupaten Badung). Pembimbing (1) Prof. Dr. Ir I ketut Arnawa MP dan Pembimbing (2) Ir.I Made Budiasa,M.Agb.

Penelitian ini bertujuan untuk : (1) Untuk menganalisis tingkat pendapatan anggota kelompok wanita tani karang lestari.;(2) Untuk menganalisis peran kelompok wanita tani terhadap peningkatan pendapatan anggota kelompok wanita tani karang lestari. Penelitian ini dilakukan di KWT Karang Lestari, Desa Sibang Kaja, Kecamatan Abiansemal, Kabupaten Badung. Dalam penentuan sampel menggunakan metode sensus pada 17 anggota KWT dan 13 non anggota. Lokasi penelitian dipilih dengan metode *purposive sampling*, yaitu metode penentuan lokasi penelitian secara sengaja dengan pertimbangan, KWT Karang Lestari belum lama berdiri tetapi sudah berkembang dan KWT Karang Lestari termasuk KWT yang rutin melakukan kegiatan. Bibit yang dihasilkan termasuk kedalam bibit yang berkualitas. Berdasarkan *Independent T Test* didapat $\text{Sig. (2-tailed)} > 0,05$ ($0,063 > 0,05$) jadi tidak terdapat perbedaan yang signifikan antara pendapatan anggota KWT dengan Non anggota KWT. Dalam hal ini menunjukkan masih kurangnya peran KWT Karang Lestari Desa Sibang Kaja menambah pendapatan anggota wanita tani.

Kata kunci : Analisis Independent T Test, Peran Kelompok Wanita Tani, Kelompok Wanita Tani Karang Lestari

ABSTRACT

Gusti Ngurah Deva Wardana 2021. ROLE OF FARMER WOMEN'S GROUP IN INCREASING INCOME OF FARMER WOMEN'S GROUP (Case Study at KWT Karang Lestari, Sibang Kaja Village, Abiansema District, Badung Regency). Supervisor (1) Prof. Dr. Ir I Ketut Arnawa MP and Supervisor (2) Ir.I Made Budiasa,M.Ag.

This study aims to: (1) To analyze the income level of members of the women's group of sustainable coral farmers; To analyze the role of women's farmer groups in increasing the income of members of sustainable coral farmer women's groups. This research was conducted at *KWT Karang Lestari, Sibang Kaja Village, Abiansema District, Badung Regency*. In determining the sample using the census method on 17 KWT members and 13 non-members. The research location was selected by purposive sampling method, namely the method of determining the research location intentionally with consideration, *KWT Karang Lestari* has not been established for a long time but has developed and *KWT Karang Lestari* is a routine KWT. carry out activities. The seeds produced are included in quality seeds. Based on the Independent T Test obtained Sig. (2-tailed) > 0.05 (0.063 > 0.05) so there is no significant difference between the income of KWT members and non-KWT members. In this case, it shows that the role of *KWT Karang Lestari* in *Sibang Kaja Village* is still lacking in increasing the income of female farmer members.

Key words : Independent T Test Analysis, Role of Women Farmer Group, Karang Lestari Women Farmer Group
