Preface

Om Swastyastu

It gives me great pleasure to extend to you all a proceeding book of the 7th International Conference of Interreligious and Intercultural Studies. Universitas Hindu Indonesia would like to say how grateful we are to the scientist, scholar, and researcher who have contributed in the 7 th ICIIS with an insightful theme: Living The New Normal: Achieving Resilience And Ensuring Sustainable Future on 30 September, 2021.

On this proceeding book, there are 10 papers presented organized by Universitas Hindu Indonesia in collaboration with International Consortium for Religious Studies-Universitas Gadjah Mada (ICRS UGM Yogyakarta), Research Center for Area Studies-The Indonesian Institute of Sciences (PSW-LIPI Jakarta), and International Federation of the Social Sciences Organisation (IFSSO). The greatest academic issues that discussed are the general and specifics issues in Achieving Resilience And Ensuring Sustainable Future during the pandemic. How faith, religion, tourism, economic, political aspects and also culture in the broaden sense could be functioned as support systems in dealing with the new challenges after the experience of hardship with the pandemic that has ravaged religious practices, and has disturbed economic as well as political and cultural aspects of life. Reformulation of worthy elements from cultural values rooted in the society could be practiced or repracticed to deal with a new normal life or even a normal life again. Lessons learned from different countries in dealing with the pandemic could be shared in this conference so that any weeknesses of previous life with pandemic, shall not be repeated by others

In this precious moment, I would like to express our gratitude Hilmar Farid, Ph. D.(the General Director of Culture-the Ministry of Education and Culture-the Republic of Indonesia who gave a valuable speech at this conference. I would like also to convey my appreciation to all invited speakers, both local and broad scholars. We consider that the papers contribution of participants and speakers is exactly the main thing. Through these articles, we explore and develop smart ideas to deal with the threat to the social and culture resiliencies. There are many strategies could be applied by lessons learned from the bad impacts of the pandemic in reviving to the new normal life or even a normal life.

We sincerely hope that this book could be an academic references for scholars from various fields of interest.

Om santih, santih, santih, Om
